Professional Objective

Results-driven Full Stack Web Developer with strong expertise in modern frontend technologies. Specialized in building high-performance, scalable web applications using React.js and Next.js. Proficient in complete JavaScript ecosystem (MERN stack) with deep focus on clean code, exceptional user experience, and secure authentication using Better Auth. Passionate about solving complex problems and delivering responsive, user-centric digital solutions that drive business growth.

Technical Skills

- **Frontend:** JavaScript (ES6+), React.js, Next.js (App Router), Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, Better Auth
- **Database:** MongoDB
- **Tools:** VS Code, Git, GitHub, Figma Vercel, Chrome DevTool
- **Other:** Responsive Design, Performance Optimization, SEO, Accessibility, UI/UX

Featured Projects

MediQueue - Tutor Booking Site

- MediQueue is a modern tutor booking web application where students can register, browse available tutors, and book online or offline learning sessions based on subject and time availability. The system generates digital session tokens for each booking and allows users to manage their scheduled classes efficiently. Users can create profiles using email or Google login. The platform includes an advanced tutor search system, along with tutor adding, booking, and management features.
